

BEFORE THE  
POSTAL REGULATORY COMMISSION  
WASHINGTON, D.C. 20268-0001

**MAIL PROCESSING NETWORK RATIONALIZATION  
SERVICE CHANGES, 2012**

DOCKET No. N2012-1

**UNITED STATES POSTAL SERVICE NOTICE OF FILING ERRATA TO  
SUPPLEMENTAL TESTIMONY OF WITNESS BRATTA (USPS-ST-1)  
(May 8, 2012)**

The version of the Supplemental Testimony of Dominic L. Bratta on Behalf of the United States Postal Service (USPS-ST-1) filed on April 16, 2012 contains errors on pages 2 and 3.<sup>1</sup> Replacement pages attached to this notice include corrected pages 2 and 3, with revised content shown in gray highlighted text.

Respectfully submitted,

UNITED STATES POSTAL SERVICE  
By its attorneys:

Anthony F. Alverno  
Chief Counsel  
Global Business and Service Development

James M. Mecone

475 L'Enfant Plaza, S.W.  
Washington, D.C. 20260

---

<sup>1</sup> Supplemental Testimony of Dominic L. Bratta on Behalf of the United States Postal Service, PRC Docket No. N2012-1 (April 16, 2012).

1 other than mail processing at impacted facilities, and my revised estimate of  
2 maintenance activities associated with cross-docking operations.

3 **USPS-T-5 at 13, 17, and 19**

4 The updated library references supersede footnotes 1, 2 and 3 of USPS-  
5 T-5, at pages 13, 17, and 19, respectively. Those footnotes describe my original  
6 estimate of space utilized for operations other than mail processing at impacted  
7 facilities and are now superseded because I have calculated the actual space  
8 utilized for operations other than mail processing at impacted facilities instead of  
9 using an estimate based on sampling. This set of updates is incorporated in  
10 USPS Library Reference USPS-LR-N2012-1/80.

11 **USPS-T-5 at 18**

12 The estimate of \$68 million for spare parts at page 18 of USPS-T-5 is  
13 superseded by an estimate of \$42 million. This revised update is consistent with  
14 the new mail processing equipment sets described in USPS Library Reference  
15 USPS-LR-N2012-1/83 and is reflected in USPS Library Reference USPS-LR-  
16 N2012-1/81.

17 **USPS-LR-N2012-1/80**

18 USPS Library Reference USPS-LR-N2012-1/80 updates USPS Library  
19 Reference USPS-LR-N2012-1/31. It reflects the new mail processing equipment  
20 set described in USPS Library Reference USPS-LR-N2012-1/83 and derived

---

prepared by witness Rosenberg (USPS-T-3) in USPS Library Reference 37. Those initial equipment set estimates were based upon the assumption that all of the operational consolidation proposals pending on December 5, 2011 would be implemented. At my direction, her office has updated that library reference by producing USPS Library Reference 83 to reflect equipment set estimates based upon the February 23 facility consolidation decisions.

1 from the AMP study results released on February 23, 2012, calculation of the  
2 actual space utilized for operations other than mail processing at impacted  
3 facilities, and the maintenance cost attributable to cross-docking.

4 **USPS-LR-N2012-1/81**

5 USPS Library Reference USPS-LR-N2012-1/81 updates USPS Library  
6 Reference USPS-LR-N2012-1/33. It reflects the new mail processing equipment  
7 set described in USPS Library Reference USPS-LR-N2012-1/83 and derived  
8 from the AMP study results released on February 23, 2012.

9 **USPS-LR-N2012-1/85**

10 Finally, USPS Library Reference USPS-LR-N2012-1/85 updates USPS  
11 Library Reference USPS-LR-N2012-1/67. It reflects the new mail processing  
12 equipment set described in USPS Library Reference USPS-LR-N2012-1/83.  
13 This library reference supports the revised estimates of equipment maintenance  
14 staffing provided in USPS-LR-N2012-1/80.
